Memories, how great they are and what a comfort they will be in the days, months and years to come. No longer we will be able to hear your wonderful laugh out loud - but in our mind how they will linger for ever. Though not there for your first few years God graced me with many "first experiences with you". Your first horseback rides (and getting caught in the thicket). first day in high school as we rushed to make it on our own, trips to Vegas (first time seeing and holding your very own \$100 bill) and Disneyland. There were other firsts that I missed such as the birth of your two wonderful daughters and grandchildren, as life took us in different directions and localities, but you were always in my heart. Bob still teases me about how you were my "favorite" long before my children were born. I will miss you here on earth, but have God's assurances that we will meet again. I missed your first steps into Heaven but know that we will walk together over the street of gold and enjoy God's beauty and peace. Love you always, Jo Jo

I was fortunate to have worked with Kelley for many years. I hope the following quote will soften the grief of all who knew her. "The angels are always near to those who are grieving, to whisper to them that their loved one is safe in the hands of God"
